CGDP 3rd Asian Symposium for Advanced General Dentistry (21st to 23rd July 2017)

This symposium seeks to explore and share advancements in clinical practice as well as relevant technological applications. The College hopes to establish collaboration between partner associations amongst the ASEAN countries. Coming together, we can inspire and promote excellence in dentistry for this region. The ASAGD is a great platform for outstanding clinicians of this region to share their work and inspire others to excel in dentistry.

Featuring Keynote Speaker

Dr. Wynn Okuda has over 29 years of experience in cosmetic dentistry. He has been featured in over 100 publications around the world, including The New York Times, The Wall Street Journal, New Woman, Shape Magazine, Reader's Digest and others. He was the past National President of the American Academy of Cosmetic Dentistry (AACD), and remains as a Board Accredited Fellow. He is also a Fellow of the International College of Dentists and International Congress of Oral Implantology, and Expert Advisory to the National Advisory Board of Academy of General Dentistry (AGD). He has been rated Dentistry Today's Top 100 Clinicians in Continuing Education for last ten years.

Dr. Okuda is Co-Founder of Pan-Pacific Dental Institute (Honolulu, HI), which provides education in cosmetic, implant and restorative dentistry to dentists worldwide, and Founder of National Charitable Program "Give Back a Smile" program.

Days 1 and 2 - Asian Speakers:

The first day and the morning session of the second day will feature clinicians from across Asia flying into Singapore to share their expertise and insights about the latest advances and techniques in Dentistry.

Days 2 and 3 - Dr. Wynn Okuda:

The afternoon session of the second day and the third day will see renowned clinician and educator Dr Wynn Okuda speak on innovative solutions to complex aesthetic restorative challenges.

Dr. Wynn Okuda Lecture Synopsis

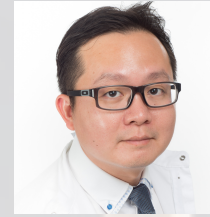

Innovative solutions to complex cosmetic restorative problems - Meeting the needs of the modern cosmetic patient

Working with the modern cosmetic patient in this present age of society can be very demanding. The expectations are difficult unless you are armed with the latest in innovative concepts to correct their complex cosmetic restorative problems. From aesthetic diagnosis to final bonding of the restorations, Dr. Okuda will discuss the proper clinical procedures and patient management for predictable success in cosmetic and restorative cases. Tapping on over 29 years of experience in cosmetic dentistry, this lecture is directed towards providing you with the knowledge to solve complex aesthetic restorative challenges.

Learning Objectives

1. Achieve natural aesthetic results using innovative solutions to correct complex aesthetic problems.
2. Understanding the latest in Smile Design concepts to meet the high demands of the modern cosmetic patient.
3. Achieve predictable aesthetic success with State-of-the-Art material science.
4. Accelerated Treatment - why is this important in dentistry.
5. Showcasing innovative problem solving using Accelerated Treatment protocols.
6. Understanding which cosmetic dental patients NOT to treat.
7. Achieving exceptional results with Minimal Invasive Dentistry.
8. Predictable approach to colour matching to attain consistent aesthetic results.
9. How to implement the objective and subjective smile form in customising your smile design.
10. Laboratory communication for optimal aesthetic restorative results
11. Salvaging the severely broken down tooth
12. Proper aesthetic diagnostic procedures in restoring the cosmetic dental patient.
