CGDP Laser Symposium

NUSS KENT RIDGE GUILD HOUSE • 9 KENT RIDGE DRIVE, 119241

5th to 6th September 2015

ORCHARD SCOTTS DENTAL • WHEELOCK PLACE #05-08, 238880

7th September 2015

CDE points
will be awarded!

Following the success of our inaugural laser symposium in 2013 and 2014, CGDP is proud to present a two day lecture cum hands-on workshop and an advance day lecture cum live demo this year to acquaint dentists with the technology and clinical application of laser in their practices.

The lecture cum hands on workshop will be conducted by two highly acclaimed speakers, Dr Peter Pang and Ms Caroline Sweeney.

The lecture on the first day will provide participants with insights into the fundamentals and indications of laser in Dentistry.

Participants who have signed up for the hands-on workshop will be able to get a hands-on experience with both the diode soft tissue laser and Er:YAG hard tissue laser. Subsequently, the participants will get an ALD Certification for both the diode and Er:YAG wavelengths.

For the advanced day, participants will be taught the more complex use and indications of lasers. There will be live demonstrations with small group teaching. It is recommended for practitioners with ALD certification or experienced practitioners in the field of laser dentistry to sign up for this lecture.

Speaker's Profile

Dr. Peter Pang DDS, MAGD, MALD, is a leading expert in laser dentistry. With over 25 years of delivering patient care, he has extensive experience in providing comprehensive dentistry utilizing the latest technologies. His armamentarium combines extensive continuing education with high-tech equipment to optimize patient treatment. He has attained Advanced

Level, Mastership and Educator Status with the Academy of Laser Dentistry (ALD) and is also the previous Chairman of Science & Research with ALD. As one of 17 recognized educators for the Academy of Laser Dentistry, he has been invited as a keynote speaker on lasers at many dental conventions, both at home and internationally.

Programmes at a Glance

5th September 2015: Lecture - 8.30am to 1.30pm

- Overview and History of Lasers
- Laser Physics and Tissue Interactions
- Non-Contact Techniques with the Diode Laser Safety
- Diode Lasers in Non-Surgical Periodontics (case selection, laser settings, protocol)
- The Business of Laser Dentistry (descriptive words to use with patients, ROI of laser)

5th September 2015: Hands-on Workshop - 2.30pm to 5.00pm

- Techniques for Diode & Er:YAG

6th September 2015: Lecture and Competency Test - 8.30am to 6.30pm

- Wavelengths—Delivery Systems & Clinical differences
- Bond Strength Enhancement in Erbium laser direct restorations
- Review Testing Protocol
- Competency Testing for ALD Standard Proficiency Candidates

7th September 2015: Advanced Lecture and Live Demo - 8:30am to 5:00pm

- Diode and Erbium Procedures (indications in surgery)
- Comparison and Contrast on Diode, Nd:YAG and Er:YAG in frenectomies, biopsies and gingival sculpting
- Smile Design Detailed
- Using Multiple Lasers in Advanced Surgical Perio & implants
- Laser technology in Endodontics
- LLLT in postoperative care and wound healing

Teabreak and lunch will be provided

Note: If there are insufficient participants, this session may be cancelled and fees will be refunded.
