# 7<sup>th</sup> Implant Symposium 2023

18 – 20 November 2023 | Marina Bay Sands Singapore

## ANTERIOR IMPLANT ESTHETICS: SCIENCE, ART & LIMITATIONS

### Workshop 1

Immediate Implant Placement and  
Provisionalization (IIPP) with Root-Connective  
Assist Graft in the Aesthetic Zone.

**SOLD OUT**

### Workshop 2

Immediate Implant Placement  
and Provisionalization (IIPP)  
with Root-Shield Technique  
in the Aesthetic Zone.

SPEAKER  
Professor Joseph Kan

2 days Masterclass  
Lectures and exhibition:  
**18 – 19 November 2023**  
**16 CDE Points**

Hands-on Workshops:  
**20 November 2023**  
(limited attendance)  
**4 CDE Points per workshop**

## 2 days Exclusive Masterclass Lectures with Prof Joseph Kan

### “Anterior Implant Esthetics; Science, Art & Limitations”

Achieving anterior implant esthetics is always challenging. Because of that, there is a ‘wow factor’ when showing amazing and unbelievable cases. However, can one delineate fantasy from reality?

Creating implant restorations with harmonious gingival contours that emulate nature is a fusion of science and art. Understanding the biologic and physiologic limitations of soft and hard tissue is key to facilitating predictability in complex esthetic situations.

This course is designed for the Oral Surgeon, Periodontist, Orthodontist, Prosthodontist, Implantologist and Restorative Dentist and will focus on current implant treatment philosophies and methodologies for replacing missing teeth and management of patients who will be losing a tooth or teeth in the esthetic zone.

Emphasis will be on diagnosis and treatment planning, management of complex cases and complications, interdisciplinary treatments, and soft and hard tissue regeneration for optimal anterior implant esthetics.

#### Objectives:

- Prognostic keys for predictable implant esthetics
- Immediate vs. Delayed vs. Early tooth replacements concepts
- Horizontal and vertical Bone & Soft Tissue Regeneration
- Papilla management
- Gingival recession and Papilla loss; Etiology & Solutions
- Root Shield: What Have we learned over the past 13 years?
- Management of surgical and prosthetic complications
- Interdisciplinary Treatment Concepts (Ortho, Perio & Prosthodontics)
- Long-term follow-ups; (5, 10, 15, 25+ years)
- Emergence Profile Contouring

SPEAKER PROFILE  
Professor Joseph Kan

Prof. Joseph Kan completed his specialty training in Prosthodontics as well as a Master Degree of Implant Surgery from Loma Linda University School of Dentistry (LLUSD) in 1997. He is currently a Professor at the Department of Restorative Dentistry and the research coordinator for the Implant Dentistry Program in LLUSD.

Prof. Joseph Kan is on the Periodontology/Implantology Editorial Board of the Practical Periodontics & Aesthetic Dentistry. He is a member of the American Dental Association, Academy of Osseointegration, American College of Prosthodontists, American Academy of Fixed Prosthodontics and an associate member of the Pacific Coast Society of Prosthodontists. Prof. Kan is one of few clinicians worldwide that has been trained in both the surgical and restorative disciplines of implant dentistry.

Besides lecturing both nationally and internationally, he has published over 40 articles in reference journals and chapters in textbooks.

### Workshop 1 (8:00am – 12:00pm):

## Immediate Implant Placement and Provisionalization (IIPP) with Scarf Connective Tissue Graft in the Aesthetic Zone

Objectives:

1. Choosing the correct size of implant diameter.
2. Place implants in the correct 3D positioning in anterior zone.
3. Implant placement protocol.
4. Provisionalization of the immediate implant.
5. Understanding Critical and Sub-Critical prosthetic contour.
6. Harvesting a Scarf tissue graft for the anterior immediate implant placement.

Workshop Sponsor

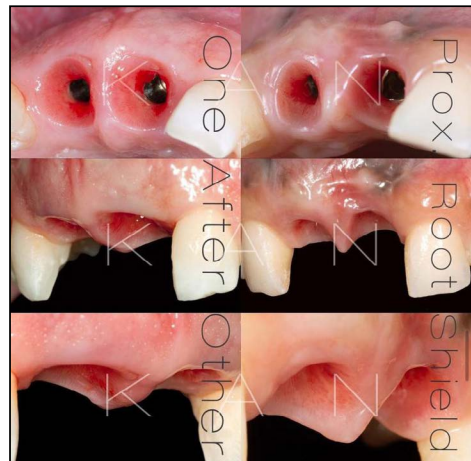

### Workshop 2 (2:00pm – 6:00pm):

## Immediate Implant Placement and Provisionalization (IIPP) with Root-Shield Technique in the Aesthetic Zone

Objectives:

1. Root shield preparation for anterior zone with Partial Extraction Therapy Kit.
2. Choosing the correct size of implant diameter.
3. Place implant in the correct 3D positioning in the anterior zone.
4. Implant placement protocol.
5. Provisionalization of the immediate implant.
6. Understanding Critical and Sub-Critical prosthetic contour.

# 7<sup>th</sup> Implant Symposium 2023

18 – 20 November 2023 | Marina Bay Sands Singapore

## MASTERCLASS LECTURES SYMPOSIUM FEES

| Category                           | CGDP Members | Non-members |
|------------------------------------|--------------|-------------|
| Early Bird by 31 Aug 2023          | S\$995       | S\$1,200    |
| Normal                             | S\$1,195     | S\$1,400    |
| <b>LIMITED ATTENDANCE WORKSHOP</b> |              |             |
| Workshop 2 (afternoon)             | S\$1,400     |             |

### Terms & Conditions:

#### Registration policy:

- Registration and payment via website only. Registration is on a first come first serve basis and will be valid only upon full payment. CGDP reserves the right to amend any part of the programme without giving prior notice and to cancel or postpone the programme, change the venue and date and time of the event.
- Participants must sign up for the main symposium in order to sign up for the workshop.
- Only current CGDP members will be entitled to member rates. For undergraduates attending the main symposium, you are required to submit a front copy of your matriculation card and bring the card along during registration for verification.

#### Refund policy:

- Cancellation must be made by email to [info@cgdp.org.sg](mailto:info@cgdp.org.sg). Cancellation received before 17 October 2023 will be granted refund, less S\$300 administrative fee.
- There will be NO refunds for cancellation or non attendance after 18 October 2023.
